A Cultural History of Japanese Buddhism (Wiley-Blackwell Guides to Buddhism) By William E. Deal, Brian Ruppert

A Cultural History of Japanese Buddhism offers a comprehensive, nuanced, and chronological account of the evolution of Buddhist religion in Japan from the sixth century to the present day.

- Traces each period of Japanese history to reveal the complex and often controversial histories of Japanese Buddhists and their unfolding narratives
- Examines relevant social, political, and transcultural contexts, and places an emphasis on Japanese Buddhist discourses and material culture
- Addresses the increasing competition between Buddhist, Shinto, and Neo-Confucian world-views through to the mid-nineteenth century
- Informed by the most recent research, including the latest Japanese and Western scholarship
- Illustrates the richness and complexity of Japanese Buddhism as a lived religion, offering readers a glimpse into the development of this complex and often misunderstood tradition

Editorial Review

Review

“In short, this study is a welcome contribution to the field and will make an excellent textbook for the classroom.” (*Japanese Journal of Religious Studies*, 1 October 2015)

Review

Professors Deal and Ruppert offer a detailed account of the rich diversity of Japanese Buddhist traditions from the sixth century to the present, paying close attention to social context. This comprehensive volume draws together the most recent developments in scholarship for each historical period and redresses many of the gaps in prior overviews. It will serve for years to come as a welcome introduction to students and a valuable reference for specialists.

Jacqueline Stone, Princeton University

From the Back Cover

A Cultural History of Japanese Buddhism presents a vivid, nuanced, and chronological account of Buddhist religion in Japan, from its emergence in the sixth century right through to the present day. Authors William Deal and Brian Ruppert, both experts on Japanese religions, explore each period of Japanese history to reveal the complex and often controversial histories of Japanese Buddhists and their unfolding narratives.

Incorporating the most recent Japanese and Western scholarship, the book explores the contexts that made possible the introduction of Buddhist texts and images in the sixth century; traces their development through the Nara and early Heian eras; and reveals the increasing influence of Buddhism into the Kamakura Era. It addresses the increasing competition between Buddhist, Shinto, and Neo-Confucian world-views through to the mid-19th century, and following Japan's emergence as a world power, explores Buddhist thought and practice from World War II through to the present day. Offering readers more than a simple historical review, the authors also reveal the seemingly contradictory ways that Japanese people are able to draw upon Buddhist ideas to help create a more meaningful world, whilst at the same time justifying multiple and competing perspectives. With scholarly precision, *A Cultural History of Japanese Buddhism* offers an illuminating glimpse into the evolution of a complex and often misunderstood religious tradition.

Users Review

From reader reviews:

Lisa Morgan:

Have you spare time to get a day? What do you do when you have far more or little spare time? Yes, you can choose the suitable activity to get spend your time. Any person spent their particular spare time to take a move, shopping, or went to the actual Mall.
