Thousands of years later, tumultuous times are upon the world now known as the Four Lands. Users of magic are in conflict with proponents of science. Elves have distanced their society from the other races. The dwindling Druid order and its teachings are threatened with extinction. A sinister politician has used treachery and murder to rise as prime minister of the mighty Federation. Meanwhile, poring through a long-forgotten diary, the young Druid Aphenglow Elesedil has stumbled upon the secret account of an Elven girl's heartbreak and the shocking truth about the vanished Elfstones. But never has a little knowledge been so very dangerous—as Aphenglow quickly learns when she's set upon by assassins.

Yet there can be no turning back from the road to which fate has steered her. Whoever captures the Elfstones and their untold powers will surely hold the advantage in the devastating clash to come. But when the Druids mount an expedition to locate the missing stones, they quickly discover there may be even
