Editorial Review

From School Library Journal

Grade 2-4-These books open with a description of the animal or insect, followed by a discussion of the meaning of the term "life cycle." Then, life stages are highlighted and clearly explained scientifically. How humans are adversely affecting the creatures' lives and what students can do about it are also discussed. An abundance of clear, colorful, attractively bordered photographs and illustrations enhance the fact-filled texts. These well-written titles will be used for research and pleasure reading.
