Bundle: Introduction to Statistics and Data Analysis, Loose-leaf Version, 5th + WebAssign Printed Access Card for Peck/Olsen/Devore's Introduction to ... Printed Access Card for Peck's Statistics: By Roxy Peck, Chris Olsen, Jay L. Devore

Roxy Peck, Chris Olsen, and Jay Devore's new edition uses real data and attention-grabbing examples to introduce students to the study of statistics and data analysis. Traditional in structure yet modern in approach, this text guides students through an intuition-based learning process that stresses interpretation and communication of statistical information. Simple notation--including frequent substitution of words for symbols--helps students grasp concepts and cement their comprehension. Hands-on activities and interactive applets allow students to practice statistics firsthand. INTRODUCTION TO STATISTICS AND DATA ANALYSIS, 5e includes updated coverage of most major technologies, as well as expanded coverage of probability.

Editorial Review

About the Author

Roxy Peck is Emerita Associate Dean of the College of Science and Mathematics and Professor of Statistics Emerita at California Polytechnic State University, San Luis Obispo. A faculty member at Cal Poly from 1979 until 2009, Roxy served for six years as Chair of the Statistics Department before becoming Associate Dean, a position she held for 13 years. She received an M.S. in Mathematics and a Ph.D. in applied statistics from the University of California, Riverside. Roxy is nationally known in the area of statistics education, and she was presented with the Lifetime Achievement Award in Statistics Education at the U.S. Conference on Teaching Statistics in 2009. In 2003, she received the American Statistical Association's Founder's Award, recognizing her contributions to K-12 and undergraduate statistics education. She is a Fellow of the American Statistical Association and an elected member of the International Statistics Institute. Roxy served for five years as the Chief Reader for the Advanced Placement (AP) Statistics Exam and has chaired the American Statistical Association's Joint Committee with the National Council of Teachers of Mathematics on Curriculum in Statistics and Probability for Grades K-12 and the Section on Statistics Education. In addition to her texts in introductory statistics, Roxy is also co-editor of "Statistical Case Studies: A Collaboration Between Academe and Industry" and a member of the editorial board for "Statistics: A Guide to the Unknown, 4th Edition." Outside the classroom, Roxy likes to travel and spends her spare time reading mystery novels. She also collects Navajo rugs and heads to Arizona and New Mexico whenever she can find the time.

Chris Olsen taught statistics at George Washington High School in Cedar Rapids, Iowa, for over 25 years and currently teaches at Grinnell College. Chris is a past member (twice) of the AP Statistics Test Development Committee and has been a table leader at the AP Statistics reading for 12 years. He is a long-time consultant to the College Board and has led workshops and institutes for AP Statistics teachers in the United States and internationally. Chris was the Iowa recipient of the Presidential Award for Excellence in Science and Mathematics Teaching in 1986, a regional awardee of the IBM Computer Teacher of the Year in 1988, and received the Siemens Award for Advanced Placement in mathematics in 1999. Chris is a frequent contributor to and is moderator of the AP Teacher Community online. He is currently a member of the editorial board of "Teaching Statistics." Chris graduated from Iowa State University with a major in mathematics and philosophy. While acquiring graduate degrees at the University of Iowa, he concentrated on statistics, computer programming, and psychometrics. In his spare time he enjoys reading and hiking. He and his wife have a daughter, Anna, a Caltech graduate in Civil Engineering. Her field of expertise is quantification of uncertainty in seismic risk.

Jay Devore is Professor Emeritus of Statistics at California Polytechnic State University. He earned his undergraduate degree in Engineering Science from the University of California at Berkeley, spent a year at the University of Sheffield in England, and finished his Ph.D. in statistics at Stanford University. Jay previously taught at the University of Florida and at Oberlin College and has had visiting appointments at Stanford, Harvard, the University of Washington, New York University, and Columbia University. From 1998 to 2006, he served as Chair of the Cal Poly Statistics Department. In addition to this book, Jay has written several other widely used statistics texts for engineers and scientists and a book in applied mathematical statistics. He recently coauthored a text in probability and stochastic processes. He is the recipient of a distinguished teaching award from Cal Poly, is a Fellow of the American Statistical Association, and has served several terms as an Associate Editor of the "Journal of the American Statistical

Association." In his spare time, he enjoys reading, cooking and eating good food, tennis, and travel to faraway places. He is especially proud of his wife, Carol, a retired elementary school teacher, his daughter Allison, who has held several high-level positions in nonprofit organizations in Boston and New York City, and his daughter Teresa, a high school teacher in Brooklyn.

Users Review

From reader reviews:

Joyce Bullock:

Book is to be different for every single grade. Book for children until adult are different content. As we know that book is very important for all of us. The book Bundle: Introduction to Statistics and Data Analysis, Loose-leaf Version, 5th + WebAssign Printed Access Card for Peck/Olsen/Devore's Introduction to ... Printed Access Card for Peck's Statistics: had been making you to know about other information and of course you can take more information. It is very advantages for you. The e-book Bundle: Introduction to Statistics and Data Analysis, Loose-leaf Version, 5th + WebAssign Printed Access Card for Peck/Olsen/Devore's Introduction to ... Printed Access Card for Peck's Statistics: is not only giving you a lot more new information but also being your friend when you experience bored. You can spend your current spend time to read your book. Try to make relationship with all the book Bundle: Introduction to Statistics and Data Analysis, Loose-leaf Version, 5th + WebAssign Printed Access Card for Peck/Olsen/Devore's Introduction to ... Printed Access Card for Peck's Statistics:. You never sense lose out for everything if you read some books.

Olivia Clinard:

Information is provisions for people to get better life, information currently can get by anyone in everywhere. The information can be a understanding or any news even restricted. What people must be consider while those information which is inside former life are hard to be find than now is taking seriously which one is acceptable to believe or which one often the resource are convinced. If you obtain the unstable resource then you buy it as your main information there will be huge disadvantage for you. All of those possibilities will not happen within you if you take Bundle: Introduction to Statistics and Data Analysis, Loose-leaf Version, 5th + WebAssign Printed Access Card for Peck/Olsen/Devore's Introduction to ... Printed Access Card for Peck's Statistics: as the daily resource information.

Mae Bushee:

Your reading 6th sense will not betray a person, why because this Bundle: Introduction to Statistics and Data Analysis, Loose-leaf Version, 5th + WebAssign Printed Access Card for Peck/Olsen/Devore's Introduction to ... Printed Access Card for Peck's Statistics: guide written by well-known writer who knows well how to make book that could be understand by anyone who have read the book. Written inside good manner for you, leaking every ideas and creating skill only for eliminate your personal hunger then you still skepticism Bundle: Introduction to Statistics and Data Analysis, Loose-leaf Version, 5th + WebAssign Printed Access Card for Peck/Olsen/Devore's Introduction to ... Printed Access Card for Peck's Statistics: as good book not merely by the cover but also through the content. This is one reserve that can break don't judge book by its deal with, so do you still needing yet another sixth sense to pick this!? Oh come on your looking at sixth sense already said so why you have to listening to yet another sixth sense.

Chad Smith:

What is your hobby? Have you heard that will question when you got learners? We believe that that problem was given by teacher on their students. Many kinds of hobby, Every person has different hobby. So you know that little person just like reading or as reading become their hobby. You need to understand that reading is very important in addition to book as to be the point. Book is important thing to increase you knowledge, except your personal teacher or lecturer. You discover good news or update in relation to something by book. Different categories of books that can you take to be your object. One of them are these claims Bundle: Introduction to Statistics and Data Analysis, Loose-leaf Version, 5th + WebAssign Printed Access Card for Peck/Olsen/Devore's Introduction to ... Printed Access Card for Peck's Statistics:.
