Relic: How Our Constitution Undermines Effective Government--and Why We Need a More Powerful Presidency By William G. Howell, Terry M. Moe

Our government is failing us. From health care to immigration, from the deficit to climate change, our political institutions have long shown that they are incapable of meeting the challenges of modern society. Why the dysfunction?

In *Relic*, William Howell and Terry Moe point to the Constitution as the main culprit. The framers designed a government for a simple, agrarian society—and that government is unsuited to a huge, complex, post-industrial nation the founders did not even remotely foresee. Howell and Moe argue that we need a second Progressive movement to bring reform to American government, above all by strengthening the power of the president. *Relic* challenges us to reconsider the very foundation of our political system, shedding new light on what is wrong with our government and what can be done about it.

Editorial Review

Review

Advance Praise for *Relic*:

“Focused, committed, convincing, and composed in moderate language that will appeal to those all along the political continuum.”

—**Kirkus Reviews**

“Howell and Moe make the bold and trenchant argument that the dysfunctions of American government lie squarely in the powers that the Founding Fathers gave Congress, and that the solution is to dramatically shift the balance of power to the executive. This book is sure to trigger an important debate, precisely because its fundamental analysis is so correct.”

—**Francis Fukuyama, Stanford University, and author of *Political Order and Political Decay***

“Clear-eyed and unapologetic, Howell and Moe insist that our nation’s political woes stem not from our polarized political class but from an outdated Constitution. Anyone interested in our nation’s political health will profit from exploring their bracing vision of how that Constitution now protects particularistic interests and propagates dysfunction.”

—**Paul Pierson, UC Berkeley, and coauthor of the *New York Times* bestseller *Winner-Take-All Politics***

“Howell and Moe deserve immense credit for ‘connecting the dots’ between our dangerously dysfunctional political system and an outmoded Constitution. One can only admire their willingness to challenge the cult of the Constitution that afflicts our political culture and hope that their book gets the widespread attention that it so richly deserves.”

—**Sanford Levinson, University of Texas Law School, and author of *Framed: America’s 51 Constitutions and the Crisis of Governance***

“Howell and Moe deliver the most concise, devastating account of congressional failure that I have ever read. In calling for a constitutional amendment that would increase the president’s power over the legislative process, they have set the terms of debate for years to come.”

—**Eric Posner, University of Chicago**

“Of all the books seeking to explain the decline of our political institutions, this one—from two of our best presidential scholars—might be the most radical. The problem, William Howell and Terry Moe argue, is that the Constitution fundamentally misdesigned Congress. Their cure for this mistake: a President with far greater control over the legislative process. For a daring argument about the future of American government, here’s your book.”

—**Richard H. Pildes, Sudler Family Professor of Constitutional Law at NYU School of Law**

"Marshaling an institutional imagination, *Relic* urgently contends that the Constitution should be revised to confer 'fast-track' powers on presidents to help American democracy successfully address our most pressing problems. Especially for those of us wishing to fortify Congress, this provocative call for a more formidable

presidency offers a strongly-argued challenge. Let the debate begin!"

—**Ira Katznelson, author of *Fear Itself: The New Deal and the Origins of Our Time***

"Timely, accessible and provocative, *Relic* is essential reading for scholars, policymakers, and ordinary citizens concerned about whether their government is up to emerging challenges like global terrorism, rising inequality, and climate change."

—**Eric Patashnik, Professor of Public Policy and Politics, University of Virginia and author of *Reforms at Risk***
