The New Voice Pedagogy By Marilee David

The simple but vital premise behind this important book is that a healthy voice is a beautiful voice, and a clear tone and pleasant sound will arise from a healthy vocal technique. Based on the concepts of voice therapy, laryngology, and voice science, *The New Voice Pedagogy* presents a no-nonsense look at the ways knowledge gained through modern science can be applied to teaching voice. Marilee David, an experienced teacher and performer, first explains the physiology of the voice, then examines individual aspects of singing, such as breathing, mouth position, phrasing, tone quality, pitch, resonance, and registration, and offers instruction and exercises appropriate to each component. David also considers the effects of different lifestyle factors and situations on the voice, such as singing with a cold or illness, common medications, obesity, hormones, and aging. She describes symptoms and treatments of common voice problems, including hoarseness, laryngitis, types of dysphonias, and examples of abuse and misuse, giving an overview of voice therapy and diagnostic tools. An important chapter on ethics, unique to this book, uses case studies to examine ethical questions that arise in the voice studio. New to this second edition are expanded sections on posture and kyphosis, HIV and AIDS, and the aging voice, and a helpful glossary of terms used in voice therapy, laryngology, and voice science is included. The bibliography of over three hundred books and articles provides a supplemental reading list for those interested in learning more, and a new final chapter summarizes the pedagogical concepts explored.

Editorial Review

Review

In clear, concise, no-nonsense language, this fine little manual provides an individual and systematic approach to singing and the teaching of singing that integrates research data and concepts from related disciplines.....

Many of the topics covered could prove useful to choral directors.....

About the Author

Marilee David has taught voice for twenty years in college and community settings. She teaches a wide variety of students including those with a history of laryngeal damage or injury.

Users Review
