Alien Viruses: Crashed UFOs, MJ-12, & Biowarfare By Dr. Robert M. Wood

This book, the first of its kind, delves into the many leaked documents that describe research into alien biology and virology. Dr. Robert Wood's forensic analysis of the documents themselves argues strongly for their authenticity. And their implications are startling. Alien viruses are not only deadly, but are of key importance to biological warfare on Earth. Wood examines the mysterious deaths of key microbiologists and virologists, offers insight into the huge government secret expenditures, and provides an incredible revelation from an Area 51 insider on autopsies of bodies of unknown origin. With assistance from seasoned researcher Nick Redfern, extensively footnoted, and with a comprehensive Index, this is the authoritative treatment of the subject.

Editorial Review

About the Author

Bob Wood received a B.S. in Aeronautical Engineering from University of Colorado in 1949, a Ph.D. in Physics from Cornell in 1953, worked for General Electric Aeronautics and Ordnance, served in the U.S. Army at Aberdeen Proving Ground for two years, and then completed 43 years with Douglas Aircraft and its successors. A long-time Director of the Mutual UFO Network (MUFON), a Councilor for the Society for Scientific Exploration, and member of the American Institute of Aeronautics and Astronautics since 1947, he has garnered a reputation for integrity and scholarship in this field over the last two decades. His aerospace career included the thermodynamics of keeping missiles cool; managing and selling the independent research and development projects of a couple of dozen scientists and engineers; designing radars to discriminate between Soviet ballistic missiles and their decoys; applying advanced technology to make the Space Station cheaper, better, and sooner; and finally helping to sell the Delta launch vehicle as the workhorse for NASA orbital payloads. In the late 1960s, he ran a proprietary project to try to discover how UFOs “worked,” and has been studying the UFO topic ever since. Upon retirement, he became involved in the forensics of authenticating questioned “leaked” UFO documents, collaborating occasionally with his colleague and son Ryan (author of MAJIC – Eyes Only). He recognized the excellence of Nick Redfern’s attention to high standards and asked him to provide his international reports concerning aliens and viruses.
