Hacking is an art form that most people misunderstand. In this beginners guide to hacking I try to take the mystery out of hacking and the stigma that it has taken over the years. If you are someone who does not know what hacking is, what it can do and the power and dangers that it possesses then this is the book for you.

Within these pages I pull no punches or make no apologies. I give you the truth and the foundation needed to enter into this lifestyle. And yes, hacking is a lifestyle. Hacking is a knowledgebase that once learned and used can't be unlearned or not used. The temptations that it possesses are quite real and have turned good people bad.

After reading this hacking book it is my hopes that you will have a better understanding of hacking and what it can do and once this power is gained that it is used to help and not harm.

Keeping track of ideas, notes, grocery lists, interesting web sites or whatever can be a never ending task. You can try using a word processor or even a spreadsheet. Sure these programs will do the trick when you first start off but when you start to expand and start gathering tons of information the task can be overwhelming.

This is why I am telling you about this great program Evernote. Evernote is a free application that handles all of your notes and information in a single location with unlimited storage and incredible search features. In this book we will explore the basics of Evernote and what it does and what you can do with it. It is our goal that once you complete this book that you will have a full understanding of what Evernote is and what it can do for you and your life.
