MEF- CECP 2.0 Essentials: For Carrier Ethernet 2.0 (CE 2.0) Professionals (MEF Certification Materials) By George Churchwell

Carriers have offered connectivity services based on traditional TDM, Frame Relay, ATM, DSL, and even SDH for many years. However customers now use Ethernet as the interface of choice for virtually all services and applications. The cost of operating separate networks to provide each service, as all as the need to sell higher bandwidth services than can be offered with traditional networks, is forcing carriers to move to newer, more cost effective technologies such as Ethernet, Backbone Bridging, IP and MPLS. The MEF-CECP Essentials book is a focused, accelerated student guide that consolidates all key MEF technical material into a concise, fast-paced, student guide that delivers a wide-range of technical knowledge required to pass the MEF-CECP Certification exam. The study guide will address how to use the MEF's precisely defined terms and understand advanced Carrier Ethernet concepts that will enable you to communicate and position your company's products and services more effectively and help you earn your MEF-CECP 2.0 certification along the way.

Tech 2000 is a MEF Accredited Training Provider and we continuously update the Student Guide with the Metro Ethernet Forum (MEF) Certification wiki where documents related to the exam are kept dynamically.
