The Handbook of Social Studies in Health and Medicine From SAGE Publications Ltd

This is the first international and inter-disciplinary social science Handbook on health and medicine. Five years in the making, and building on the insights and advice of an international editorial board, the book brings together world-class figures to provide an indispensable, comprehensive resource book on social science, health and medicine.

Pinpointing the focal issues of research and debate in one volume, the material is organized into three sections: social and cultural frameworks of analysis; the experience of health and illness; and health care systems and practices. Each section consists of specially commissioned chapters designed to examine the vital conceptual and methodological practice and policy issues. Readers receive

Editorial Review

Review

'The collection will offer a unique range of work, both in terms of topics and of theoretical perspectives, written by leading scholars from around the world. It will be an essential resource for teaching and research' - **Mel Bartley, Principal Research Fellow, University College, London**

'This impressive collection gives a unique insight into current debates in the social sciences in the broad domain of health, illness and health care. By bringing together the perspectives of leading North American, European and Australasian scholars, focusing on social and cultural issues, the text provides the reader with a rich tapestry of stimulating ideas and analyses of great value' - **Ian Robinson, Director for the Study of Health, Sickness and Disablement, Brunel University**

'Society has growing expectations in terms of health. The editors and contributors to this handbook are to be congratulated on providing an essential route-map for the social sciences who will play a central role in future debates on health and health care' - **Denny Vågerö, Professor of Medical Sociology, Stockholm University**

"The Handbook of Social Studies in Health & Medicine is a must for the practitioner and teacher of social science of health and medical care. To read it is to be updated and upgraded concerning theory, empirical findings and policy implications. To have it on the shelf means ready reference to current comprehensive thinking and applications. The Handbook can also be readily adopted as a basic text for upper division and graduate classes in medical sociology and anthropology as well as for social science classes in public health, nursing, medicine, allied health sciences or health care policy and management."

(Ronald Andersen)

About the Author

Gary L. Albrecht is a Fellow of the Royal Belgian Academy of Arts and Sciences, Extraordinary Guest Professor of Social Sciences, University of Leuven, Belgium and Professor Emeritus of Public Health and of Disability and Human Development at the University of Illinois at Chicago. After receiving his Ph.D. from Emory University, he has served on the faculties of Emory University in Sociology and Psychiatry, Northwestern University in Sociology, Rehabilitation Medicine and the Kellogg School of Management and the University of Illinois at Chicago (UIC) in the School of Public Health and in the Department of Disability and Human Development. Since retiring from the UIC in 2005, he divides his time between Europe and the United States. He works in Boulder, Colorado and Brussels, Belgium. He was recently a Scholar in Residence at the Maison des Sciences de l'Homme (MSH) in Paris, a visiting Fellow at Nuffield College, the University of Oxford and a Fellow in Residence at the Royal Flemish Academy of Science and Arts, Brussels

Susan C. Scrimshaw, Ph.D., is currently the President of The Sage Colleges in Troy, NY. Prior to her appointment as President of The Sage Colleges, Dr. Scrimshaw was President of Simmons College in

Boston, Massachusetts. She was dean of the School of Public Health, and professor of community health sciences and of anthropology at the University of Illinois at Chicago (UIC) from 1994 through June 2006. Prior to becoming dean at UIC in 1994, she was associate dean of public health and professor of public health and anthropology at the University of California at Los Angeles. Dr. Scrimshaw is a graduate of Barnard College and obtained her M.A. and Ph.D. in anthropology from Columbia University. Her research includes community participatory research methods, addressing health disparities, improving pregnancy outcomes, violence prevention, health literacy, and culturally appropriate delivery of health care. She is a member of the Institute of Medicine (IOM) of the National Academies, where she has been elected a member of the governing council and serves on The Committee on Science, Engineering, and Public Policy (COSEPUP), a joint unit of the National Academy of Sciences, National Academy of Engineering, and the Institute of Medicine. She is also a fellow of the American Association for the Advancement of Science, the American Anthropological Association, and the Institute of Medicine of Chicago. While in Chicago, Dr. Scrimshaw was an appointed member of the Chicago Board of Health and Illinois State Board of Health. She chaired the IOM Committee on Communication for Behavior Change in the 21st Century: Improving the Health of Diverse Populations, and served as a member of the IOM Committee on Health Literacy. She is a past president of the board of directors of the U.S.-Mexico Foundation for Science, former chair of the Association of Schools of Public Health, and past president of the Society for Medical Anthropology. Her honors and awards include the Margaret Mead Award, a Hero of Public Health gold medal awarded by President Vicente Fox of Mexico, the UIC Mentor of the Year Award in 2002, and the Chicago Community Clinic Visionary Award in 2005. Dr. Scrimshaw was raised in Guatemala until age 16. She is fluent in Spanish, and also speaks French and Portuguese.

Users Review

Veda Howard:

You may get this The Handbook of Social Studies in Health and Medicine by browse the bookstore or Mall. Simply viewing or reviewing it could to be your solve difficulty if you get difficulties for your knowledge. Kinds of this book are various. Not only simply by written or printed but in addition can you enjoy this book simply by e-book. In the modern era such as now, you just looking from your mobile phone and searching what your problem. Right now, choose your current ways to get more information about your book. It is most important to arrange yourself to make your knowledge are still update. Let's try to choose suitable ways for you.

Rebbeca Farley:

As a college student exactly feel bored in order to reading. If their teacher expected them to go to the library or even make summary for some guide, they are complained. Just very little students that has reading's internal or real their pastime. They just do what the teacher want, like asked to go to the library. They go to at this time there but nothing reading very seriously. Any students feel that reading is not important, boring in addition to can't see colorful images on there. Yeah, it is to be complicated. Book is very important for you personally. As we know that on this time, many ways to get whatever we want. Likewise word says, many ways to reach Chinese's country. So , this The Handbook of Social Studies in Health and Medicine can make you feel more interested to read.
