Engineering Software as a Service: An Agile Approach Using Cloud Computing By Armando Fox, David Patterson

Awarded "Most Promising New Textbook" for 2016 by the Textbook & Academic Authors Association

A one-semester college course in software engineering focusing on cloud computing, software as a service (SaaS), and Agile development using Extreme Programming (XP). This book is neither a step-by-step tutorial nor a reference book. Instead, our goal is to bring a diverse set of software engineering topics together into a single narrative, help readers understand the most important ideas through concrete examples and a learn-by-doing approach, and teach readers enough about each topic to get them started in the field. Courseware for doing the work in the book is available as a virtual machine image that can be downloaded or deployed in the cloud. A free MOOC (massively open online course) at saas-class.org follows the book's content and adds programming assignments and quizzes. See saasbook.info for details.

Editorial Review

Review

"It is a pleasure to see a student text that emphasizes the production of real useful software." --Frederick P. Brooks Jr., author of *The Mythical Man-Month* and winner of the Turing Award

"I'd be far more likely to prefer graduates of this program than any other I've seen." --Brad Green, Engineering Manager, Google Inc.

About the Author

Armando Fox is a Professor at UC Berkeley, the faculty advisor to the UC Berkeley MOOCLab, and the winner of the 2015 Karl V. Karlstrom Outstanding Educator award from the Association for Computing Machinery. During his previous time at Stanford, he received teaching and mentoring awards from the Associated Students of Stanford University, the Society of Women Engineers, and Tau Beta Pi Engineering Honor Society. He was named one of the "Scientific American 50" in 2003 and is the recipient of an NSF CAREER award and the Gilbreth Lectureship of the National Academy of Engineering. In previous lives he helped design the Intel Pentium Pro microprocessor and founded a successful startup to commercialize his UC Berkeley dissertation research on mobile computing. He received his other degrees in electrical engineering and computer science from MIT and the University of Illinois and is an ACM Distinguished Member. David Patterson is the Pardee Professor of Computer Science at UC Berkeley and is currently Director of the Parallel Computing Lab. In the past, he served as Chair of Berkeley's CS Division, Chair of the CRA, and President of the ACM. His best-known research projects are Reduced Instruction Set Computers (RISC), Redundant Arrays of Inexpensive Disks (RAID), and Network of Workstations (NOW). This research led to many papers, 5 books, and about 30 of honors, including election to the National Academy of Engineering, the National Academy of Sciences, the Silicon Valley Engineering Hall of Fame, and Fellow of the Computer History Museum. His teaching awards include the Distinguished Teaching Award (UC Berkeley), the Karlstrom Outstanding Educator Award (ACM), the Mulligan Education Medal (IEEE), and the Undergraduate Teaching Award (IEEE). He received all his degrees from UCLA.

Users Review

From reader reviews:

Olga Harrington:

The book Engineering Software as a Service: An Agile Approach Using Cloud Computing give you a sense of feeling enjoy for your spare time. You can use to make your capable far more increase. Book can to become your best friend when you getting tension or having big problem with the subject. If you can make reading a book Engineering Software as a Service: An Agile Approach Using Cloud Computing being your habit, you can get much more advantages, like add your capable, increase your knowledge about a few or all subjects. You are able to know everything if you like wide open and read a reserve Engineering Software as a Service: An Agile Approach Using Cloud Computing. Kinds of book are several. It means that, science publication or encyclopedia or other folks. So , how do you think about this guide?

Ethel Fung:

Hey guys, do you want to find a new book you just read? Maybe the book with the headline Engineering Software as a Service: An Agile Approach Using Cloud Computing suitable to you? The book was written by popular writer in this era. Often the book entitled Engineering Software as a Service: An Agile Approach Using Cloud Computing is the main one of several books that everyone reads now. That book was inspired many men and women in the world. When you read this book you will enter the new dimensions that you ever knew just before. The author explained their concept in a simple way, thus all of people can easily recognize the core of this reserve. This book will give you a large amount of information about this world now. So that you can see the representation of the world on this book.

Jon Farris:

Do you really one of the book lovers? If so, do you ever feel doubt while you are in the book store? Try and pick one book that you find out the inside because don't assess book by its include may doesn't work the following is difficult job because you are afraid that the inside maybe not since fantastic as in the outside seem like. Maybe your answer can be Engineering Software as a Service: An Agile Approach Using Cloud Computing why because the great cover that make you consider concerning the content will not disappoint you. The inside or content will be fantastic as the outside as well as cover. Your reading 6th sense will directly guide you to pick up this book.

Kyle Gill:

A lot of publication has printed but it is different. You can get it by online on social media. You can choose the most beneficial book for you, science, comedian, novel, or whatever simply by searching from it. It is identified as of book Engineering Software as a Service: An Agile Approach Using Cloud Computing. You can contribute your knowledge by it. Without leaving the printed book, it might add your knowledge and make you happier to read. It is most essential that, you must aware about book. It can bring you from one destination for a other place.
