Mastering JBoss Drools 6 By Mauricio Salatino, Mariano De Maio, Esteban Aliverti

Discover the power of Drools 6 and Business Rules for developing complex scenarios in your applications

About This Book

- Implement and model different rules using the DRL full syntax
- Model complex business decisions and domain models in order to automate and improve your operational decisions with the Drools framework
- A practical, fast-paced, hands-on guide to help you use the different components provided by the Drools Rule Engine

Who This Book Is For

This book is for Java developers and architects who need to have a deep understanding of how to create or integrate your applications with the Drools Rules Framework. The book assumes that you know the Java language well and also have experience with some widely used frameworks, such as Spring. You should also know the basics of Maven-based applications.

What You Will Learn

- Automate your application's decisions, such as promotion applying, discount policies, fraud detection, and more.
- Quickly get started with writing your first rules using the DRL full syntax.
- Discover the power of the new syntax components of the rule language.
- Define inferences in your business rules to simplify complex decisions.
- Write decision tables, templates, domain-specific languages, and scorecards, and learn how to map them to the Drools framework.
- Harness the full operational power of Drools through all of its configuration points.
- Use Drools configurations and architectures for different environments and scenarios.

In Detail

Mastering JBoss Drools 6 will provide you with the knowledge to develop applications involving complex scenarios. You will learn how to use KIE modules to create and execute Business Rules, and how the PHREAK algorithm internally works to drive the Rule Engine decisions. This book will also cover the relationship between Drools and jBPM, which allows you to enrich your applications by using Business Processes. You will be briefly introduced to the concept of complex event processing (Drools CEP) where you will learn how to aggregate and correlate your data based on temporal conditions. You will also learn how to define rules using domain-specific languages, such as spreadsheets, database entries, PMML, and more. Towards the end, this book will take you through the integration of Drools with the Spring and Camel frameworks for more complex applications.

Style and approach

Approached from a developer's perspective, the book teaches you all the advanced concepts of Business Rules applicable examples with helpful screenshots, diagrams, tutorials, and examples.

Editorial Review

About the Author

Mauricio Salatino

Mauricio Salatino is a Senior software engineer at JBoss/RedHat. Mauricio works full time as a Drools and jBPM Core Developer and is in charge of developing the new generation Business Process Management Suite, along with contributing to the evolution of Drools and jBPM. Mauricio is the author of three Packt Publishing books about jBPM: jBPM6 Developer Guide, jBPM5 Developer Guide, and jBPM Developer Guide. Mauricio is based in London, UK, and in his spare time he likes to meet community members of different open source projects to build interesting projects.

Mariano De Maio

Mariano De Maio is an IT consultant and software developer with over eleven years of experience in Java and open source frameworks. He has been working with Drools and jBPM for the last six years and has collaborated with the Drools and jBPM projects several items, including Infinispan's persistence modules, extensions to the jBPM APIs, and different add-ons to the tooling functionality. In 2013, he wrote jBPM6 Developer Guide for Packt Publishing, along with Mauricio Salatino and Esteban Aliverti. In 2015, he co-founded jWoop, <http://www.jwoop.com>, which is a company that provides consultancy and training around the world. He has participated in international conferences, such as Decision Camp and other Decision Management webinars. Mariano is based in Buenos Aires, where he is happily married to his wife, Tamara, and takes care of his beautiful daughter, Sofia. In his free time, he likes to work on contributions to the open source projects he is using. He also runs his personal blog, <http://marianbuenosayres.wordpress.com>, about jBPM, Drools, and Decision Management. You can find him through the official Drools IRC channel #drools at irc.freenode.net, under the nickname mariano or mariano84.

Esteban Aliverti

Esteban Aliverti is a software engineer and a former Drools/JBPM consultant. He is also a fervent open source promoter and developer with meaningful contributions to the JBoss Drools and JBPM frameworks for the past six years. He is the coauthor of jBPM5 Developer Guide and jBPM6 Developer Guide by Packt Publishing and was awarded the JBoss' Community Recognition Award in 2012 and 2013.

Users Review

From reader reviews:

Loris Beal:

This Mastering JBoss Drools 6 tend to be reliable for you who want to certainly be a successful person, why. The key reason why of this Mastering JBoss Drools 6 can be among the great books you must have is usually giving you more than just simple examining food but feed an individual with information that probably will shock your earlier knowledge. This book is definitely handy, you can bring it all over the place and whenever your conditions in the e-book and printed ones. Beside that this Mastering JBoss Drools 6 forcing you to have an enormous of experience such as rich vocabulary, giving you tryout of critical thinking that we all know it useful in your day action. So , let's have it and revel in reading.

Melvin Robinson:

Reading a e-book tends to be new life style with this era globalization. With reading you can get a lot of information which will give you benefit in your life. Together with book everyone in this world can easily share their idea. Books can also inspire a lot of people. A great deal of author can inspire their reader with their story or their experience. Not only the storyplot that share in the textbooks. But also they write about the knowledge about something that you need example of this. How to get the good score toefl, or how to teach children, there are many kinds of book that you can get now. The authors nowadays always try to improve their talent in writing, they also doing some analysis before they write with their book. One of them is this Mastering JBoss Drools 6.

Rex Pelkey:

That publication can make you to feel relax. This kind of book Mastering JBoss Drools 6 was colorful and of course has pictures on there. As we know that book Mastering JBoss Drools 6 has many kinds or type. Start from kids until young adults. For example Naruto or Private investigator Conan you can read and believe that you are the character on there. Therefore , not at all of book tend to be make you bored, any it can make you feel happy, fun and loosen up. Try to choose the best book for you personally and try to like reading that will.

Sue Eldred:

Many people said that they feel bored stiff when they reading a reserve. They are directly felt the idea when they get a half portions of the book. You can choose typically the book Mastering JBoss Drools 6 to make your reading is interesting. Your personal skill of reading talent is developing when you like reading. Try to choose basic book to make you enjoy you just read it and mingle the impression about book and studying especially. It is to be initial opinion for you to like to start a book and examine it. Beside that the reserve Mastering JBoss Drools 6 can to be your brand-new friend when you're sense alone and confuse with what must you're doing of that time.
