Clinical Perfusion MRI From Cambridge University Press

MR perfusion imaging is an area of major research interest and rapid clinical growth. Clinical Perfusion MRI: Techniques and Applications provides a concise and comprehensive review of the principles and applications of the field, covering dynamic susceptibility contrast, dynamic contrast enhancement, and arterial spin labeling imaging techniques. Principles of blood-volume and oxygenation imaging are included. The clinical applications of perfusion imaging in neurological disease and neuroscience are discussed – major topics including its use in imaging cerebrovascular disease and brain tumors and other neurological and neurodegenerative disorders. Non-neurologic applications are also covered with chapters on cardiac disease, breast cancer and other organ systems. Use of MR perfusion imaging in pediatrics is also discussed. Throughout the book case reports are included illustrating representative clinical examples. This book will be of interest to any clinician who uses MR perfusion imaging in their clinical practice, as well as researchers in the field of MRI.

Editorial Review

About the Author

Peter Barker DPhil is Professor of Radiology and Oncology at The Russell H. Morgan Department of Radiology and Radiological Science, Johns Hopkins University School of Medicine, Baltimore, Maryland, USA.

Xavier Golay PhD is Professor and Chair of MR Neurophysics and Translational Neuroscience at the UCL Institute of Neurology, London, UK.

Greg Zaharchuk MD, PhD is Associate Professor of Radiology at Stanford University, Stanford, California, USA.

Users Review

From reader reviews:

Eric Graves:

This Clinical Perfusion MRI book is simply not ordinary book, you have it then the world is in your hands. The benefit you obtain by reading this book is actually information inside this guide incredible fresh, you will get info which is getting deeper a person read a lot of information you will get. This Clinical Perfusion MRI without we know teach the one who looking at it become critical in pondering and analyzing. Don't always be worry Clinical Perfusion MRI can bring once you are and not make your tote space or bookshelves' come to be full because you can have it inside your lovely laptop even mobile phone. This Clinical Perfusion MRI having fine arrangement in word in addition to layout, so you will not really feel uninterested in reading.

Pat Swartz:

Playing with family inside a park, coming to see the marine world or hanging out with pals is thing that usually you might have done when you have spare time, after that why you don't try issue that really opposite from that. A single activity that make you not experience tired but still relaxing, trilling like on roller coaster you have been ride on and with addition associated with. Even you love Clinical Perfusion MRI, you could enjoy both. It is very good combination right, you still want to miss it? What kind of hang-out type is it? Oh can occur its mind hangout men. What? Still don't get it, oh come on its referred to as reading friends.

Carlos Thornton:

Clinical Perfusion MRI can be one of your nice books that are good idea. We all recommend that straight away because this guide has good vocabulary which could increase your knowledge in vocabulary, easy to understand, bit entertaining however delivering the information. The article author giving his/her effort to put every word into satisfaction arrangement in writing Clinical Perfusion MRI although doesn't forget the main place, giving the reader the hottest in addition to based confirm resource details that maybe you can be

one among it. This great information could drawn you into new stage of crucial considering.

Mary Curtis:

A lot of e-book has printed but it is different. You can get it by net on social media. You can choose the top book for you, science, comic, novel, or whatever through searching from it. It is identified as of book Clinical Perfusion MRI. You'll be able to your knowledge by it. Without leaving the printed book, it could possibly add your knowledge and make a person happier to read. It is most important that, you must aware about publication. It can bring you from one destination for a other place.
