All the knowledge you need to pass the new A+ exam

A+ is the gateway certification into many IT careers and can be essential in order to start your occupation off on the right foot in the exciting and rapidly expanding field of information technology. Luckily, the 9 minibooks in *CompTIA A+ Certification All-in-One For Dummies* make it easier to prepare for this all-important exam so you can pass with flying colors! It quickly and easily gets you up to speed on everything from networking and computer repair to troubleshooting, security, permissions, customer service—and everything in between.

The CompTIA A+ test is a rigorous exam, but the experts who wrote this book know exactly what you need to understand in order to help you reach your certification goal. Fully updated for the latest revision of the exam, this comprehensive guide covers the domains of the exam in detail, reflecting the enhanced emphasis on hardware and new Windows content, as well as the nuts and bolts, like operating system basics, recovering systems, securing systems, and more.

- Find new content on Windows 8, Mac OS X, Linux, and mobile devices
- Get test-taking advice for the big day
- Prepare for the A+ exam with a review of the types of questions you'll see on the actual test
- Use the online test bank to gauge your knowledge—and find out where you need more study help

With the help of this friendly, hands-on guide, you'll learn everything necessary to pass the test, and more importantly, to succeed in your job!

Crystal Lavigne:

The book with title CompTIA A+ Certification All-in-One For Dummies (For Dummies (Computer/Tech)) possesses a lot of information that you can find out it. You can get a lot of help after read this book. This kind of book exist new know-how the information that exist in this e-book represented the condition of the world right now. That is important to you to understand how the improvement of the world. That book will bring you with new era of the internationalization. You can read the e-book with your smart phone, so you can read this anywhere you want.

Tania Hansen:

As a student exactly feel bored to be able to reading. If their teacher expected them to go to the library in order to make summary for some publication, they are complained. Just minor students that has reading's heart and soul or real their hobby. They just do what the teacher want, like asked to the library. They go to right now there but nothing reading seriously. Any students feel that studying is not important, boring in addition to can't see colorful photos on there. Yeah, it is to become complicated. Book is very important for you personally. As we know that on this period, many ways to get whatever we would like. Likewise word says, many ways to reach Chinese's country. Therefore this CompTIA A+ Certification All-in-One For Dummies (For Dummies (Computer/Tech)) can make you sense more interested to read.
