Design of Latticed Steel Transmission Structures: Standard ASCE/SEI 10-15 (Standards ASCE/SEI 10-15) By American Society of Civil Engineers

Prepared by the Design of Steel Transmission Towers Standards Committee of the Codes and Standards Activities Division of the Structural Engineering Institute of ASCE This standard provides requirements for the design, fabrication, and testing of members and connections for latticed steel electrical transmission structures. Covering guyed and self-supporting structures, these requirements are applicable to hot-rolled and cold-formed steel shapes. The standard specifies the design criteria for structure componentsmembers, connections, and guysto resist design-factored loads at stresses approaching yielding, buckling, or fracture. This new edition, which replaces the previous Standard ASCE 10-97, presents minor changes to the design requirements and introduces new sections on redundant members, welded angles, anchor bolts with base plates on leveling nuts, and post angle member splices. Topics include: loading, geometry, and analysis; design of members, including compression members, tension members, and beams; design of connections, including fasteners, minimum distances, and attachment holes; detailing and fabrication; full-scale structure testing; structural members and connections used in foundations; and quality assurance and quality control. A detailed commentary contains explanatory and supplementary information to assist users of the standard. In addition, one appendix offers 17 design examples, and a new appendix offers guidance for evaluating older (legacy) electrical transmission towers. Standard ASCE/SEI 10-15 is a primary reference for structural engineers designing latticed steel electrical transmission structures, as well as for other engineers, inspectors, and utility officials involved in the electric power transmission industry.

Editorial Review

Users Review

From reader reviews:

Brandon Harmon:

The ability that you get from Design of Latticed Steel Transmission Structures: Standard ASCE/SEI 10-15 (Standards ASCE/SEI 10-15) may be the more deep you excavating the information that hide inside words the more you get serious about reading it. It doesn't mean that this book is hard to comprehend but Design of Latticed Steel Transmission Structures: Standard ASCE/SEI 10-15 (Standards ASCE/SEI 10-15) giving you thrill feeling of reading. The article writer conveys their point in a number of way that can be understood through anyone who read that because the author of this reserve is well-known enough. This kind of book also makes your vocabulary increase well. That makes it easy to understand then can go with you, both in printed or e-book style are available. We recommend you for having this specific Design of Latticed Steel Transmission Structures: Standard ASCE/SEI 10-15 (Standards ASCE/SEI 10-15) instantly.

Donna Cancel:

In this era globalization it is important to someone to find information. The information will make a professional understand the condition of the world. The healthiness of the world makes the information simpler to share. You can find a lot of personal references to get information example: internet, classifieds, book, and soon. You will observe that now, a lot of publisher in which print many kinds of book. Often the book that recommended to your account is Design of Latticed Steel Transmission Structures: Standard ASCE/SEI 10-15 (Standards ASCE/SEI 10-15) this book consist a lot of the information on the condition of this world now. This kind of book was represented just how can the world has grown up. The terminology styles that writer require to explain it is easy to understand. The actual writer made some investigation when he makes this book. This is why this book suitable all of you.

Edgar Hightower:

You can obtain this Design of Latticed Steel Transmission Structures: Standard ASCE/SEI 10-15 (Standards ASCE/SEI 10-15) by look at the bookstore or Mall. Only viewing or reviewing it can to be your solve challenge if you get difficulties to your knowledge. Kinds of this book are various. Not only by written or printed but can you enjoy this book by simply e-book. In the modern era including now, you just looking by your mobile phone and searching what their problem. Right now, choose your personal ways to get more information about your e-book. It is most important to arrange yourself to make your knowledge are still update. Let's try to choose proper ways for you.

Jason Rickman:

What is your hobby? Have you heard in which question when you got college students? We believe that that concern was given by teacher on their students. Many kinds of hobby, Every person has different hobby. And you also know that little person similar to reading or as studying become their hobby. You need to know that reading is very important along with book as to be the point. Book is important thing to provide you knowledge, except your current teacher or lecturer. You discover good news or update concerning something by book. Different categories of books that can you choose to use be your object. One of them are these claims Design of Latticed Steel Transmission Structures: Standard ASCE/SEI 10-15 (Standards ASCE/SEI 10-15).
