Aluminum Alloy Castings: Properties, Processes And Applications By J. Gilbert Kaufman, Elwin L. Rooy

Aluminum Alloy Castings provides property and performance data for all types of aluminum alloy castings and reviews and describes the factors that contribute to and affect those properties, including composition, microstructure, casting process, heat treatment, and quality assurance. The volume features extensive collections of property and performance data, including previously unpublished aging response curves, growth curves, and fatigue curves. These data are presented in consistent formats to enable easy comparisons among different alloys and tempers. The authors have endeavored to address all of the casting process technologies available for aluminum alloys. Engineering information is included for expendable mold, permanent mold, and pressure die casting processes and their variations. The focus of the process coverage is to review the effects of process selection and process variables on casting properties and performance. Representative examples of aluminum castings applications are provided. This book will be of significant value to materials and design engineers involved in the evaluation, selection and specification of aluminum casting applications and to casting producers as a means of better understanding, quantifying, improving, and promoting the performance characteristics of aluminum castings.

Editorial Review

About the Author

J.G. (Gil) Kaufman has a background of almost fifty years in the aluminum and materials information industries and remains an active consultant in both areas. In 1997, he retired as vice president, technology, for the Aluminum Association, Inc., headquartered in Washington, D.C., and is currently president of his consulting company, Kaufman Associates. Elwin Rooy retired after thirty-five years with the Aluminum Company of America, where he was corporate manager of metallurgy and quality assurance, to form a consulting firm specializing in aluminum process and product technologies, quality systems, and industry relations.

Users Review

From reader reviews:

Pat Billings:

Here thing why that Aluminum Alloy Castings: Properties, Processes And Applications are different and trustworthy to be yours. First of all reading a book is good however it depends in the content than it which is the content is as delicious as food or not. Aluminum Alloy Castings: Properties, Processes And Applications giving you information deeper as different ways, you can find any e-book out there but there is no guide that similar with Aluminum Alloy Castings: Properties, Processes And Applications. It gives you thrill reading journey, its open up your personal eyes about the thing this happened in the world which is possibly can be happened around you. It is possible to bring everywhere like in playground, café, or even in your approach home by train. When you are having difficulties in bringing the imprinted book maybe the form of Aluminum Alloy Castings: Properties, Processes And Applications in e-book can be your option.

Daniel Evans:

This Aluminum Alloy Castings: Properties, Processes And Applications are reliable for you who want to be described as a successful person, why. The reason of this Aluminum Alloy Castings: Properties, Processes And Applications can be on the list of great books you must have is definitely giving you more than just simple examining food but feed a person with information that perhaps will shock your prior knowledge. This book is handy, you can bring it everywhere and whenever your conditions in the e-book and printed kinds. Beside that this Aluminum Alloy Castings: Properties, Processes And Applications giving you an enormous of experience such as rich vocabulary, giving you tryout of critical thinking that we all know it useful in your day exercise. So , let's have it appreciate reading.

Roderick Olin:

The publication with title Aluminum Alloy Castings: Properties, Processes And Applications contains a lot of information that you can study it. You can get a lot of gain after read this book. This kind of book exist new information the information that exist in this e-book represented the condition of the world today. That

is important to you to learn how the improvement of the world. This particular book will bring you throughout new era of the the positive effect. You can read the e-book on your smart phone, so you can read the idea anywhere you want.

Jessica Bowman:

Reading a book for being new life style in this 12 months; every people loves to go through a book. When you read a book you can get a wide range of benefit. When you read textbooks, you can improve your knowledge, because book has a lot of information in it. The information that you will get depend on what sorts of book that you have read. If you need to get information about your study, you can read education books, but if you act like you want to entertain yourself you can read a fiction books, this sort of us novel, comics, along with soon. The Aluminum Alloy Castings: Properties, Processes And Applications will give you new experience in reading through a book.
