Editorial Review

From Publishers Weekly

This volume contains eight speeches Che Guevara gave between 1959 and 1962, at the height of the Cuban revolution. Guevara's addresses express the anti-American sentiment of the era, castigating the "U.S. imperialists." The volume also contains a speech given by Fidel Castro, in which he honored Che and his fallen comrades during the October 1997 ceremony in which Castro received Guevara's remains. The sections are introduced with a brief description of the social, political, and historical situation at the time of the speech. Recommended for academic libraries with a Latin American studies program and any large public library that serves a large Latino population. This book will be of particular interest to the Cuban American community. Eduardo Tinoco, Lehman Brothers Lib., Los Angeles

Review

[In these speeches Che is] revived to an extent that even the best biographies rarely achieve.... [T]he Argentine revolutionary challenges his audience to study, work, and join the front lines of struggles. His public, the youth of Cuba, is also the world at large. Che's speeches are characterized by ... a belief in a society that serves the common people instead of the powerful.... [A]ny sizable library serving Spanish-speaking young adults should include. --Criticas
