Foundations of Electronics: Circuits & Devices Conventional Flow By Russell Meade, Robert Diffenderfer

The conventional flow version of Foundations of Electronics: Circuits and Devices comprehensively teaches electronics fundamentals for both DC and AC circuits, from Ohm's Law through series and parallel circuits, and features strong coverage of solid-state devices theory and important practical circuits in which diodes, BJT's, FET's, MOSFET's and optoelectronic devices are used. The Second Edition has been updated to better provide a foundation in power supplies, amplifiers, oscillators, op-amps, and optoelectronic systems that readers need to launch a career or pursue more advanced study. Real-world color codes and strategic highlighting combine with color charts, photos, schematics, and diagrams to build an understanding of circuits and devices that bridges the gap between must-know theory and hands-on circuit work. Other enhancements include totally new, automated calculations for the formulas in the book on the accompanying CD, and all-new information on admittance and susceptance.

Foundations of Electronics: Circuits & Devices Conventional Flow By Russell Meade, Robert Diffenderfer **Bibliography**

- Sales Rank: #708225 in Books
- Brand: Cengage Learning
- Published on: 2006-06-02
- Ingredients: Example Ingredients
- Original language: English
- Number of items: 1
- Dimensions: 11.25" h x 9.00" w x 1.50" l, 5.24 pounds
- Binding: Hardcover
- 1072 pages

Editorial Review

Review

PART I FOUNDATIONAL CONCEPTS: Basic Concepts of Electricity, Electrical Quantities and Components PART II BASIC CIRCUIT ANALYSIS: Ohm's Law Series Circuits Parallel Circuits Series-Parallel Circuits Basic Network Theorems Network Analysis Techniques PART III PRODUCING and MEASURING ELECTRICAL QUANTITIES: Magnetism and Electromagnetism Measuring Instruments Basic AC Quantities The Oscilloscope PART IV REACTIVE COMPONENTS: Inductance Inductive Reactance in AC RL Circuits in AC Basic Transformer Characteristics Capacitance Capacitive Reactance in AC RC Circuits in AC RLC Circuit Analysis Series and Parallel Resonance. PART V: Semiconductor Materials and P-N Junctions Diodes and Diode Circuits Power Supply Circuits Bipolar Junction Transistors BJT Amplifier Circuits, Field-Effect Transistors and Circuits Operational Amplifiers Oscillators and Multivibrators Thyristors Optoelectronics

About the Author

Russell L. Meade obtained his Bachelor of Science degree from Mercer University in Georgia. He possesses more than 11 years of teaching experience in electronics and more than 10 years of business experience in such high-tech industries as Scientific-Atlanta, Electromagnetic Sciences, Inc., and Training Technology, Inc. Russell also has more than 16 years of State Agency Technical Education experience in the field of electronics, and has authored numerous books for electronics education and training.

Robert Diffenderfer received a Bachelor of Science in Electrical Engineering (BSEE) from John Brown University and a Master of Science in Electrical Engineering (MSEE) from the University of Illinois. With over 28 years of professional experience, he is currently a Senior Professor with DeVry University teaching in the Bachelor of Science in Electronic Engineering Technology program at the Kansas City, Missouri campus.

Users Review

From reader reviews:

Flora Young:

Have you spare time for just a day? What do you do when you have much more or little spare time? That's why, you can choose the suitable activity regarding spend your time. Any person spent their particular spare time to take a move, shopping, or went to often the Mall. How about open as well as read a book called Foundations of Electronics: Circuits & Devices Conventional Flow? Maybe it is to become best activity for you. You understand beside you can spend your time along with your favorite's book, you can wiser than before. Do you agree with the opinion or you have various other opinion?

Thomas Kelly:

As people who live in the particular modest era should be change about what going on or facts even knowledge to make these keep up with the era and that is always change and move ahead. Some of you maybe will certainly update themselves by looking at books. It is a good choice to suit your needs but the

problems coming to you actually is you don't know what one you should start with. This Foundations of Electronics: Circuits & Devices Conventional Flow is our recommendation to make you keep up with the world. Why, because this book serves what you want and wish in this era.

Alma Medina:

Spent a free time to be fun activity to complete! A lot of people spent their sparetime with their family, or all their friends. Usually they performing activity like watching television, about to beach, or picnic in the park. They actually doing same task every week. Do you feel it? Would you like to something different to fill your free time/ holiday? May be reading a book is usually option to fill your cost-free time/ holiday. The first thing you will ask may be what kinds of e-book that you should read. If you want to test look for book, may be the book untitled Foundations of Electronics: Circuits & Devices Conventional Flow can be great book to read. May be it is usually best activity to you.

Harley Campbell:

Reading can called imagination hangout, why? Because when you are reading a book mainly book entitled Foundations of Electronics: Circuits & Devices Conventional Flow your brain will drift away trough every dimension, wandering in each aspect that maybe not known for but surely will end up your mind friends. Imaging just about every word written in a guide then become one type conclusion and explanation that will maybe you never get before. The Foundations of Electronics: Circuits & Devices Conventional Flow giving you yet another experience more than blown away the mind but also giving you useful info for your better life in this particular era. So now let us teach you the relaxing pattern the following is your body and mind will likely be pleased when you are finished reading through it, like winning a. Do you want to try this extraordinary paying spare time activity?
