Programming JavaScript Applications: Robust Web Architecture with Node, HTML5, and Modern JS Libraries By Eric Elliott

Take advantage of JavaScript's power to build robust web-scale or enterprise applications that are easy to extend and maintain. By applying the design patterns outlined in this practical book, experienced JavaScript developers will learn how to write flexible and resilient code that's easier—yes, easier—to work with as your code base grows.

JavaScript may be the most essential web programming language, but in the real world, JavaScript applications often break when you make changes. With this book, author Eric Elliott shows you how to add client- and server-side features to a large JavaScript application without negatively affecting the rest of your code.

- Examine the anatomy of a large-scale JavaScript application
- Build modern web apps with the capabilities of desktop applications
- Learn best practices for code organization, modularity, and reuse
- Separate your application into different layers of responsibility
- Build efficient, self-describing hypermedia APIs with Node.js
- Test, integrate, and deploy software updates in rapid cycles
- Control resource access with user authentication and authorization
- Expand your application's reach through internationalization

Editorial Review

About the Author

Eric Elliott is a veteran of JavaScript application development. He is currently a member of the Creative Cloud team at Adobe. Previous roles include JavaScript Lead at Tout (social video), Senior JavaScript Rockstar at BandPage (an industry leading music app), head of client side architecture at Zumba Fitness (the leading global fitness brand), and several years as a UX and viral application consultant. He lives in the San Francisco bay area with the most beautiful woman in the world.

Users Review

From reader reviews:

Joseph Gee:

With other case, little persons like to read book Programming JavaScript Applications: Robust Web Architecture with Node, HTML5, and Modern JS Libraries. You can choose the best book if you'd prefer reading a book. Providing we know about how is important any book Programming JavaScript Applications: Robust Web Architecture with Node, HTML5, and Modern JS Libraries. You can add understanding and of course you can around the world by way of a book. Absolutely right, simply because from book you can learn everything! From your country until foreign or abroad you will find yourself known. About simple point until wonderful thing you are able to know that. In this era, you can open a book or searching by internet gadget. It is called e-book. You may use it when you feel fed up to go to the library. Let's study.

Rebecca Lopez:

Information is provisions for those to get better life, information nowadays can get by anyone with everywhere. The information can be a knowledge or any news even restricted. What people must be consider while those information which is within the former life are hard to be find than now could be taking seriously which one is acceptable to believe or which one the particular resource are convinced. If you find the unstable resource then you have it as your main information you will have huge disadvantage for you. All of those possibilities will not happen in you if you take Programming JavaScript Applications: Robust Web Architecture with Node, HTML5, and Modern JS Libraries as the daily resource information.

Clifford Stoner:

Programming JavaScript Applications: Robust Web Architecture with Node, HTML5, and Modern JS Libraries can be one of your basic books that are good idea. Many of us recommend that straight away because this reserve has good vocabulary that will increase your knowledge in vocabulary, easy to understand, bit entertaining but still delivering the information. The article author giving his/her effort that will put every word into delight arrangement in writing Programming JavaScript Applications: Robust Web

Architecture with Node, HTML5, and Modern JS Libraries although doesn't forget the main point, giving the reader the hottest and based confirm resource information that maybe you can be among it. This great information can certainly drawn you into new stage of crucial contemplating.

Craig Palmer:

Many people spending their moment by playing outside along with friends, fun activity having family or just watching TV all day every day. You can have new activity to pay your whole day by examining a book. Ugh, do you think reading a book can actually hard because you have to use the book everywhere? It ok you can have the e-book, delivering everywhere you want in your Cell phone. Like Programming JavaScript Applications: Robust Web Architecture with Node, HTML5, and Modern JS Libraries which is getting the e-book version. So , try out this book? Let's find.
