Special Integrals of Gradshteyn and Ryzhik: the Proofs - Volume II
(Chapman & Hall/CRC Monographs and Research Notes in Mathematics)
By Victor H. Moll

A Guide to the Evaluation of Integrals

Special Integrals of Gradshteyn and Ryzhik: the Proofs provides self-contained proofs of a variety of entries in the frequently used table of integrals by I.S. Gradshteyn and I.M. Ryzhik. The book gives the most elementary arguments possible and uses *Mathematica*® to verify the formulas. You will discover the beauty, patterns, and unexpected connections behind the formulas.

Volume II collects 14 papers from *Revista Scientia* covering elliptic integrals, the Riemann zeta function, the error function, hypergeometric and hyperbolic functions, Bessel-K functions, logarithms and rational functions, polylogarithm functions, the exponential integral, and Whittaker functions. Many entries have a variety of proofs that can be evaluated using a symbolic language or point to the development of a new algorithm.

Editorial Review

About the Author

Victor H. Moll is a professor in the Department of Mathematics at Tulane University. His research interests include special functions, number theory, and symbolic computation.

Users Review

From reader reviews:

James Oliver:

Now a day people that Living in the era exactly where everything reachable by talk with the internet and the resources included can be true or not require people to be aware of each info they get. How many people to be smart in having any information nowadays? Of course the reply is reading a book. Examining a book can help people out of this uncertainty Information mainly this Special Integrals of Gradshteyn and Ryzhik: the Proofs - Volume II (Chapman & Hall/CRC Monographs and Research Notes in Mathematics) book because book offers you rich details and knowledge. Of course the details in this book hundred per-cent guarantees there is no doubt in it you may already know.

Lupita Kirch:

The feeling that you get from Special Integrals of Gradshteyn and Ryzhik: the Proofs - Volume II (Chapman & Hall/CRC Monographs and Research Notes in Mathematics) will be the more deep you excavating the information that hide within the words the more you get serious about reading it. It doesn't mean that this book is hard to recognise but Special Integrals of Gradshteyn and Ryzhik: the Proofs - Volume II (Chapman & Hall/CRC Monographs and Research Notes in Mathematics) giving you joy feeling of reading. The author conveys their point in specific way that can be understood by anyone who read the item because the author of this reserve is well-known enough. That book also makes your own vocabulary increase well. That makes it easy to understand then can go with you, both in printed or e-book style are available. We suggest you for having that Special Integrals of Gradshteyn and Ryzhik: the Proofs - Volume II (Chapman & Hall/CRC Monographs and Research Notes in Mathematics) instantly.

Edna Barnett:

The guide with title Special Integrals of Gradshteyn and Ryzhik: the Proofs - Volume II (Chapman & Hall/CRC Monographs and Research Notes in Mathematics) has lot of information that you can discover it. You can get a lot of help after read this book. This kind of book exist new understanding the information that exist in this publication represented the condition of the world at this point. That is important to yo7u to find out how the improvement of the world. This book will bring you with new era of the internationalization. You can read the e-book on your own smart phone, so you can read that anywhere you want.

Carole Arehart:

Are you kind of hectic person, only have 10 or 15 minute in your time to upgrading your mind talent or thinking skill also analytical thinking? Then you are experiencing problem with the book than can satisfy your short space of time to read it because all of this time you only find reserve that need more time to be study. Special Integrals of Gradshteyn and Ryzhik: the Proofs - Volume II (Chapman & Hall/CRC Monographs and Research Notes in Mathematics) can be your answer as it can be read by a person who have those short free time problems.
