Cinema 4D Beginner's Guide By Jen Rizzo

In Detail

3D animation offers a versatile way to bring ideas to life. With this guide, you'll learn how to take your vision and turn it into beautiful images

With "Cinema 4D", you can quickly and easily bring your visions to life. This beginner's guide will walk you through creating and animating a 3D scene, with tips and techniques for everything from photorealistic rendering to motion graphics.

"Cinema 4D" enables everyone from professionals to hobbyists to create stunning 3D animations. This book will walk you through all the steps of creating an interior flythrough of an office: creating a 3D structure, adding materials and lighting, animating, and rendering. Then, you'll explore additional features through a series of mini projects: creating motion graphics, exporting a stylized non-realistic image, adding hair and creating cloth. You'll learn how to connect pieces that all work together by exploring node-based programming in Xpresso, then wrap everything up with an introduction to compositing in Adobe After Effects.

Approach

Step-by-step instructions with guiding screenshots will help new users to create a photorealistic interior scene with an animated camera. Users will also learn how to use the MoGraph module to create dynamic motion graphics, how to link parameters with Xpresso (Cinema 4D's node-based programming language), and are guided through mini-projects to explore additional tools for non-photorealistic illustrations, hair creation and cloth rendering.

Who this book is for

Designers and artists with a basic proficiency in animation or computer graphics, as well as professionals who are familiar with other 3D animation software.

About the Author

Jen Rizzo

Jen Rizzo is a Motion Graphics Designer in San Francisco, CA. Her career began at Skidmore, Owings and Merrill (New York) as a 3D Architectural Visualizer, then continued in a similar capacity at FRCH Design Worldwide (Cincinnati) before relocating to San Francisco in 2008. She has worked with over thirty companies in the last four years, jumping in at every stage of the design process. She is overly excited by almost everything.

In her personal life, she strives to become a stronger cyclist and hopes to someday beat someone at a board game. She has a near-unhealthy obsession with cured meat, cheese, chocolate and coffee, and will wax poetically on the city of San Francisco until someone distracts her. She would like to thank malt, hops, and yeast for existing in perfect liquid triumvirance.
