Point of Care Ultrasound, 1e By Nilam J Soni MD, Robert Arntfield MD, Pierre Kory MPA MD

BMA President's Choice Award Winner and Highly Commended in Internal Medicine category at the BMA Medical Book Awards 2015 With portable, hand-carried ultrasound devices being more frequently implemented in medicine today, *Point-of-Care Ultrasound* will be a welcome resource for any physician or health care practitioner looking to further their knowledge and skills in point-of-care ultrasound. This comprehensive, portable handbook offers an **easy-access format** that combines **electronic content** and **peer-reviewed videos** to provide comprehensive, non-specialty-specific guidance on this ever-evolving technology.

- **Access all the facts** with focused chapters covering a diverse range of topics, as well as **case-based examples** that include ultrasound scans and videos.
- **Understand the pearls and pitfalls of point-of-care ultrasound** through contributions from experts at more than 30 institutions.
- **View techniques more clearly than ever before.** Illustrations and photos include **transducer position, cross-sectional anatomy, ultrasound cross sections, and ultrasound images.**
- **Expert Consult eBook version included with purchase.** This **enhanced eBook experience** allows you to **watch more than 200 ultrasound videos** from real-life patients that demonstrate key findings; these videos are complemented by **anatomical illustrations** and **text descriptions** to maximize learning. You'll also be able to search all of the text, figures, and references from the book on a variety of devices.

Editorial Review

Review

"The authors of this book have struck the ideal balance between breadth and depth of coverage. *Point-of-Care Ultrasound* contains nearly all the detail of a textbook, yet it reads and functions like a handbook. The included electronic version is an exceptional format to view the book. In general, this book has something to offer healthcare providers across specialties regardless of their level of ultrasound expertise." -Daniel A. Sweeney, MD (*Critical Care Medicine*, August 2015, Volume 43, Number 8)
