Making Sense: Teaching and Learning Mathematics with Understanding 1st (first) Edition by Hiebert, James, Carpenter, Thomas P., Fennema, Elizabeth, Fu published by Heinemann (1997) By

The key to effective math learning lies not in the regurgitation of isolated facts but in the ability to reason with and use what is learned - in understanding the concepts. But what does it mean to design a classroom so that understanding is the primary objective? What would a system of instruction look like if we took seriously the goal of helping all students understand mathematics? In this ground-breaking book, James Hiebert and his colleagues arm teachers with the best current research-based ideas for designing - and defending - classrooms that support students' mathematical understanding. It is based on the authors' work in four separate research programs, all of which investigated the effects of specific instructional approaches. Out of their ongoing discussions emerged a striking consensus about what features are essential and what features are optional, which they share in this book. They also provide glimpses into their individual projects and into the classrooms from which they have drawn many of their ideas. By describing the essential features of classrooms that support students' mathematical understanding and by offering pictures of several classrooms that exhibit these features, Making Sense provides a valuable framework within which elementary teachers can reflect on their own practice and think again about what it means to teach for understanding.

From reader reviews:

Kristen Hamilton:

Do you have favorite book? For those who have, what is your favorite's book? Reserve is very important thing for us to find out everything in the world. Each guide has different aim or goal; it means that publication has different type. Some people really feel enjoy to spend their time for you to read a book. They can be reading whatever they get because their hobby will be reading a book. Why not the person who don't like reading through a book? Sometime, individual feel need book whenever they found difficult problem or exercise. Well, probably you will require this Making Sense: Teaching and Learning Mathematics with Understanding 1st (first) Edition by Hiebert, James, Carpenter, Thomas P., Fennema, Elizabeth, Fu published by Heinemann (1997).

Martha Holt:

Information is provisions for individuals to get better life, information nowadays can get by anyone at everywhere. The information can be a knowledge or any news even a concern. What people must be consider while those information which is within the former life are hard to be find than now could be taking seriously which one would work to believe or which one the particular resource are convinced. If you get the unstable resource then you get it as your main information you will have huge disadvantage for you. All of those possibilities will not happen in you if you take Making Sense: Teaching and Learning Mathematics with Understanding 1st (first) Edition by Hiebert, James, Carpenter, Thomas P., Fennema, Elizabeth, Fu published by Heinemann (1997) as your daily resource information.

Kenneth Leishman:

Playing with family in a park, coming to see the marine world or hanging out with good friends is thing that usually you have done when you have spare time, after that why you don't try factor that really opposite from that. One activity that make you not sensation tired but still relaxing, trilling like on roller coaster you are ride on and with addition of information. Even you love Making Sense: Teaching and Learning Mathematics with Understanding 1st (first) Edition by Hiebert, James, Carpenter, Thomas P., Fennema, Elizabeth, Fu published by Heinemann (1997), it is possible to enjoy both. It is excellent combination right, you still would like to miss it? What kind of hang-out type is it? Oh come on its mind hangout guys. What? Still don't buy it, oh come on its referred to as reading friends.

Amy Zambrano:

This Making Sense: Teaching and Learning Mathematics with Understanding 1st (first) Edition by Hiebert, James, Carpenter, Thomas P., Fennema, Elizabeth, Fu published by Heinemann (1997) is great e-book for you because the content which can be full of information for you who always deal with world and still have to make decision every minute. That book reveal it facts accurately using great arrange word or we can say no rambling sentences within it. So if you are read that hurriedly you can have whole facts in it. Doesn't mean it only provides you with straight forward sentences but difficult core information with wonderful delivering sentences. Having Making Sense: Teaching and Learning Mathematics with Understanding 1st (first) Edition by Hiebert, James, Carpenter, Thomas P., Fennema, Elizabeth, Fu published by Heinemann (1997) in your hand like keeping the world in your arm, data in it is not ridiculous a single. We can say that no publication that offer you world inside ten or fifteen moment right but this e-book already do that. So , this is good reading book. Heya Mr. and Mrs. stressful do you still doubt that will?
