On the Origin of Species: The Illustrated Edition By Charles Darwin

This year marks the 150th anniversary of the publication of Charles Darwin's *On the Origin of Species by Means of Natural Selection, or the Preservation of Favoured Races in the Struggle for Life*. In his landmark study, Darwin theorized that populations evolve over the course of generations through a process of natural selection. These ideas flew in the face of long-held beliefs, and the book immediately became one of the most controversial scientific works in history—and it still remains so today. Now, for the first time, Darwin's classic is fully and handsomely illustrated with more than 350 illustrations and photos, many of them in brilliant color. Reproductions from Darwin's *The Voyage of the Beagle*, his journal of the travels that led to his remarkable breakthrough, appear throughout, inviting readers to experience Darwin's journey and to understand how he developed his theory of evolution. In addition, brief excerpts from his letters, diaries, and correspondence bring both Darwin the man and his revolutionary discovery to life.

A Main Selection of Scientific America.

Editorial Review

Review

Praise for the hardcover edition:

“The most influential book in science gets a face-lift with some amazing graphics and Quammen's erudite editing.”--*Library Journal* (The Best Sci-Tech books of 2008)

“The perfect way to become acquainted with the authentic voice of the greatest biologist of all time, in a context provided by one of the finest scientific writers of today.”--Gregory A. Petsko, *European Molecular Biology Organization (EMBO) Journal*

About the Author

David Quammen is an award-winning science, nature, and travel writer whose work has appeared in publications such as *National Geographic*, *Outside*, *Harper's*, *Rolling Stone*, and the *New York Times Book Review*. He wrote a column called “Natural Acts” for *Outside* magazine for 15 years. He is the author of *The Song of the Dodo: Island Biogeography in an Age of Extinctions* (Scribner, 1996), *Monster of God: The Man-Eating Predator in the Jungles of History and the Mind* (W. W. Norton 2003), and *The Reluctant Mr. Darwin: An Intimate Portrait of Charles Darwin and the Making of His Theory of Evolution* (W. W. Norton 2006). He is a Rhodes Scholar and has also garnered a Guggenheim Fellowship and won the John Burroughs Medal for nature writing. Quammen lives in Bozeman, Montana.

Users Review

From reader reviews:

Nellie Davis:
