Pediatric Swallowing and Feeding: Assessment and Management By Joan C. Arvedson, Linda Brodsky

A Volume in the Early Childhood Intervention Series The comprehensive primary reference for assessment and management of infants and children of all ages with feeding and swallowing problems is updated and expanded in this second edition. The authors cogently detail vital information with clarity and precision for all professionals involved with pediatric swallowing and feeding disorders. New chapters focus on behavioral related feeding problems and chronic aspiration. Major reorganization adds evidence based, up-to-date information useful to the student as well as the seasoned practitioner.

Editorial Review

Review

" The new second edition highlights recent developments in the field of swallowing disorders including new research findings, advances in technology, surgery and pharmacology, and the current state-of-the-art for management of pediatric patients with dysphagia. The authors present a multidisciplinary format written in a practical and informative manner that blends theoretical and clinical principles for guiding team decisions in patient care. The second edition remains extremely comprehensive in its scope, and an important resource for all disciplines interested in pediatric dysphagia." -- Jeri L. Miller (National Institute of Health, Bethesda, MD)
