The Bionic Human (Library of Future Medicine) By Allan B. Cobb

Ripped from Today's Headlines, Here Are Six Important Titles Focusing on the Future of Medical Technology This series of books highlights current and future trends in advancing medical technology, from the use of new materials for artificial organs to the genetic engineering of disease-free human beings. New diagnostic imaging systems have made it much easier for doctors to determine the nature of injuries, and new surgical tools mean safer operations and shorter stays in the hospital. Future medicine will likely astound us all. A discussion of the advancing science of prosthetics and the new materials and devices being used to create artificial limbs and organs, this book also covers new sensory devices that may someday eliminate deafness and blindness or increase the power of our sense perceptions.

Editorial Review

About the Author

Series introduction author Ronald J. Brogan is the Bureau Chief for the New York City office of D.A.R.E. (Drug Abuse Resistance Education) America. He also serves as a D.A.R.E. regional director for Oregon, Connecticut, Massachusetts, Maine, New Hampshire, New York, Rhode Island, and Vermont. In 1997, Brogan retired from the U.S. Drug Enforcement Administration, where he served as a special agent for 26 years. He holds bachelor's and master's degrees in criminal justice from the City University of New York.

Users Review

From reader reviews:

Peggy Hahne:

Do you have favorite book? In case you have, what is your favorite's book? Reserve is very important thing for us to know everything in the world. Each publication has different aim or goal; it means that book has different type. Some people truly feel enjoy to spend their time to read a book. They are really reading whatever they acquire because their hobby is actually reading a book. Why not the person who don't like examining a book? Sometime, particular person feel need book if they found difficult problem or even exercise. Well, probably you will need this The Bionic Human (Library of Future Medicine).

Sarah Ford:

As people who live in typically the modest era should be up-date about what going on or data even knowledge to make them keep up with the era which can be always change and move forward. Some of you maybe will certainly update themselves by reading books. It is a good choice for you but the problems coming to anyone is you don't know which you should start with. This The Bionic Human (Library of Future Medicine) is our recommendation so you keep up with the world. Why, since this book serves what you want and wish in this era.

Nancy Gump:

Don't be worry if you are afraid that this book will filled the space in your house, you may have it in e-book way, more simple and reachable. This The Bionic Human (Library of Future Medicine) can give you a lot of friends because by you taking a look at this one book you have issue that they don't and make a person more like an interesting person. This kind of book can be one of a step for you to get success. This book offer you information that probably your friend doesn't know, by knowing more than other make you to be great folks. So , why hesitate? Let me have The Bionic Human (Library of Future Medicine).

Jean Taylor:

As a college student exactly feel bored for you to reading. If their teacher inquired them to go to the library or make summary for some book, they are complained. Just small students that has reading's soul or real their leisure activity. They just do what the educator want, like asked to go to the library. They go to at this time there but nothing reading seriously. Any students feel that reading is not important, boring and can't see colorful pics on there. Yeah, it is to be complicated. Book is very important for you personally. As we know that on this time, many ways to get whatever we really wish for. Likewise word says, many ways to reach Chinese's country. So , this The Bionic Human (Library of Future Medicine) can make you sense more interested to read.
